

## WORK SMARTER NOT HARDER.

The Smart Painter System, with its 11-point pivoting spatter shield, makes quick clean work out of any painting job. The Twist-lok® extension pole allows you to reach up to paint walls and ceilings or down to paint walls or floors, without bending!

### ★★★★★ CUSTOMER REVIEW

*"This product is great - keeps the paint where it belongs - on the walls/ceilings! No splatter, no drips, makes for a very professional-looking job! Only takes seconds to extend, or re-angle. Can't paint without it!"*

— Billy C.
