

JACK OF ALL TRADES.

Heavy duty Pro-Lok is your go-to extension pole for jobs of all kinds. Light enough to hold overhead without straining and tiring your shoulders, yet strong enough not to flex and bow out of shape during use.

★★★★★ CUSTOMER REVIEW

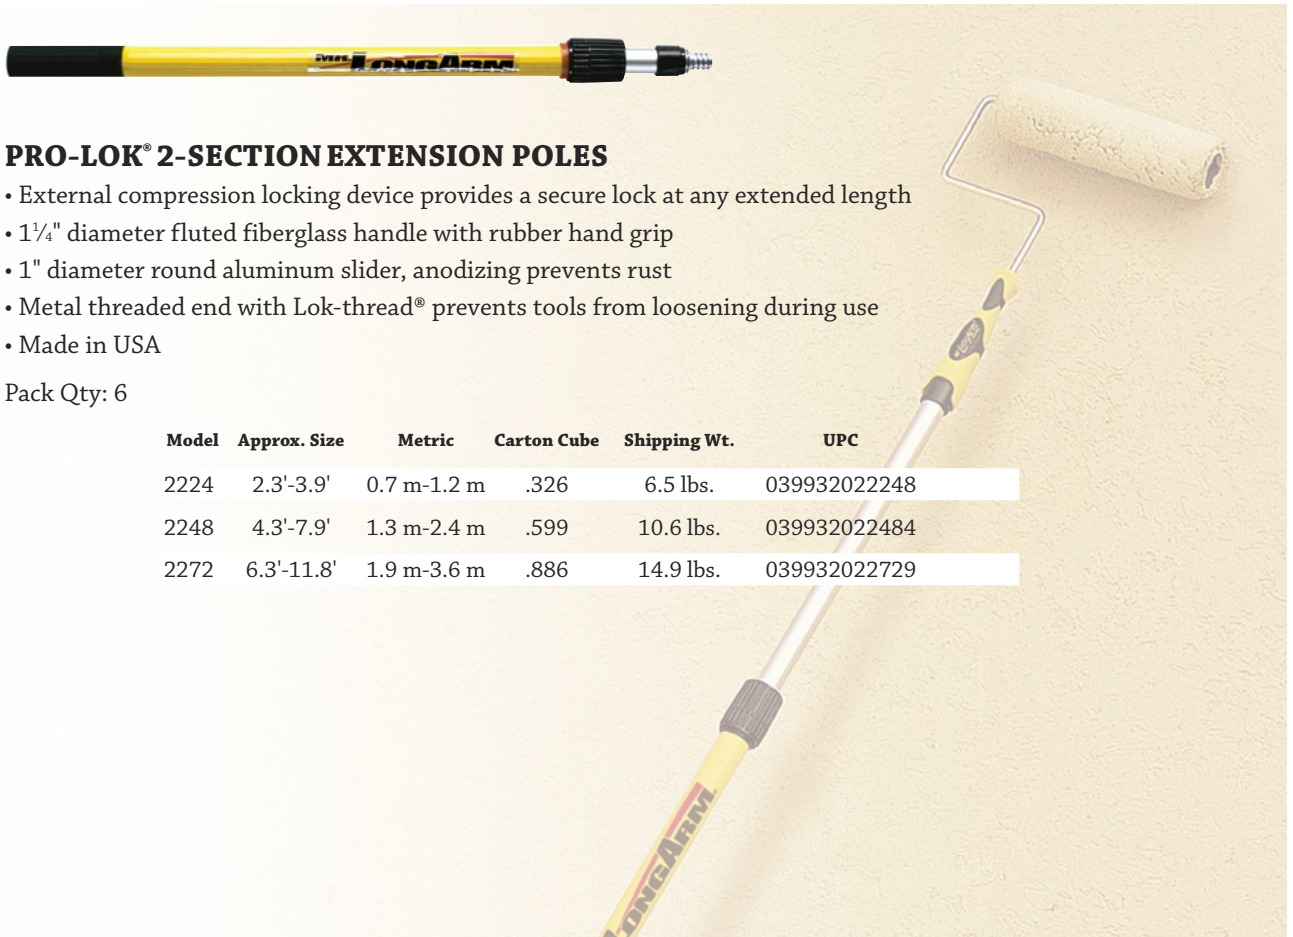

"I'd bought a cheap light weight aluminum version of this product from another company that was made in China. The cheap product broke on the first use. It pays to invest in something that is going to last. I'm expecting the Mr. Long Arm Extension Pole to last for a long, long time . . . the rest of my life, hopefully!"
